

HP: YOUR EDUCATION ICT PARTNER.

Why you should consider HP
when choosing new ICT equipment.

THE
COMPUTER
IS PERSONAL
AGAIN.

Education has changed

Education has changed. 'Chalk and talk' is dead. Students, teachers and administrators rely on technology. As a result, your choice of ICT partner is more important than ever. This is why HP is committed to helping schools get the most from their ICT investments.

- Thanks to our world-class engineering and product design, our products are reliable, easy to manage and ideal for the education environment.
- We offer a full range of products – from PCs to printers – online or through our nationwide network of local partners.
- Our investment in energy efficiency and recycling means we can help you reduce your energy consumption and reduce your CO₂ footprint.
- Because our computers are designed for reliability and security, they help pupils spend more time learning; and in a safe and secure environment.
- Plus, you have the reassurance of buying from HP authorized resellers for the education market.

A trusted ICT partner

- At home in the classroom. Choose from HP's comprehensive range of systems that work well in the classroom, including Tablet PCs, space-saving compact desktops, easy-to-manage computers featuring the latest Intel® vPro™ technology.
- Anywhere, anytime learning. Our kit enables schools to free education from the classroom.
- Professional Development Program

Students can use ICT on fieldtrips, at home, in the library, wirelessly across the school campus – wherever, whenever they need to. Support for Computrace LoJack helps schools reduce the risk of theft and increase the chances of recovering stolen laptops.

- Tough and reliable. Tough and reliable HP hardware reduces the classroom interruptions caused by breakdowns, spills, drops and knocks. HP designs and builds its own computers so we can set higher standards for reliability and construction. Many of our laptops feature drop-resistant hard drives and strong magnesium alloy frames, splash-resistant keyboards and scratch-resistant surfaces.
- Teacher-friendly. Spend more time teaching and less time getting your computer to do what you want with teacher-friendly features on HP computers, such as the presentation mode button that instantly sets up your laptop for making a presentation. Computers with Intel® vPro™ technology let IT consultants or technical support people fix problems quickly by remote control.
- Safe and secure. Protect your pupils' privacy and avoid internet viruses and threats with secure HP computers. Security features include Disk Sanitizer, HP Drivelock, and Device Access Manager. Our computers are also available with fingerprint scanners and smart card readers to make sure that only authorised users can use them.
- Well-supported. HP offers easy-to-maintain PCs with world-class warranties and local support from expert partners. A generous warranty with the option of additional Care Packs for extra coverage.

- Reducing costs. HP systems can cut the lifetime cost of owning a PC. HP's commitment to the environment also helps you reduce energy costs in your school. Cut energy costs and CO₂ emissions. HP's latest power management features save up to 481 kWh per year per PC. That's about a quarter of a tonne of CO₂ every year. HP Remote Client Solutions can cut energy consumption by up to 50% compared with conventional desktop PCs.
- Remote Client Solutions. HP has a new way to give teachers the power of a PC without all the security problems and support hassle. Processing and storage is done by a Blade PC or a server in a locked computer room. Teachers and students use small, quiet thin clients with no moving parts or existing laptops and PCs to log on. They can still run Windows XP or Windows Vista and all the usual programs. But the whole system is cheaper to support, more secure and much more reliable.
- A nationwide network of education specialists. Our partner network can combine HP hardware with specialist consulting, services, support and software to deliver a complete solution.

A company you can rely on

HP understands your concerns and budget pressures as well as the needs of teachers, students and administrators. With a full range of products, services and support, HP is the education partner you can count on.
